

# Top 5 External Integrations Every Oracle ERP Consultant Must Know

## 1. AR Lockbox Integration

Customer payments scanned by banks are automatically applied in Oracle Receivables using MICR and payment amount matching.

## 2. EDI Payments via Oracle AP

Outbound EDI 820 messages are generated for suppliers and pushed through integration middleware like Oracle Integration Cloud (OIC).

## 3. Government Financial Reporting

Oracle Fusion Government Financials connects with eGov portals through APIs or BI Publisher for statutory reports (e.g., GST, PF, 1099).

## 4. BI Publisher and External Dashboards

GL and Financial data is extracted and sent to Tableau/Power BI using scheduled email/SFTP/API-based report bursting.

## 5. Oracle Projects to Grant Portals

Oracle Projects data can be pushed via OIC transformations into XML files required by external grant tracking systems.
